OLA RIDE BOOKING ANALYSIS

Power BI Dashboard | Business Problem, Findings & Recommendations

Business Problem

Ride-hailing operations need a consolidated view of demand, booking completion, revenue mix, cancellation causes, vehicle performance, and service experience. This analysis brings these measures together to help identify operational improvement opportunities.

Project Objective

Analyse July 2024 booking activity using five interactive Power BI report pages: Overall, Vehicle Type, Revenue, Cancellation, and Ratings.

Total Bookings

103,024

Successful Bookings

63,967

Cancelled Bookings

28,933

Cancellation Rate

28.08%

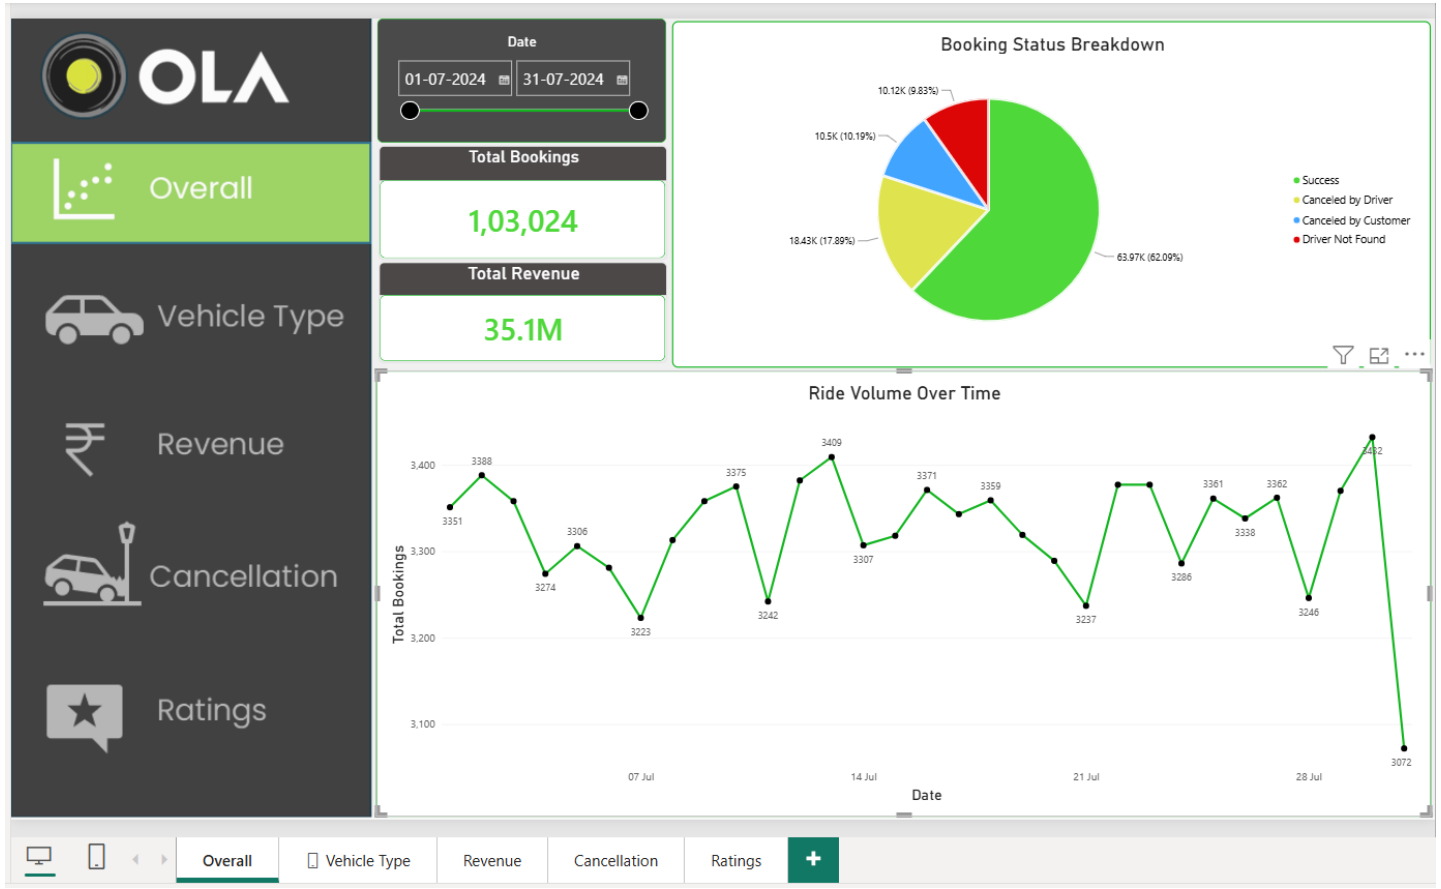

Total Revenue

35.1M

Reporting period: 01–31 July 2024

1. Overall Performance

Reporting period: 01–31 July 2024

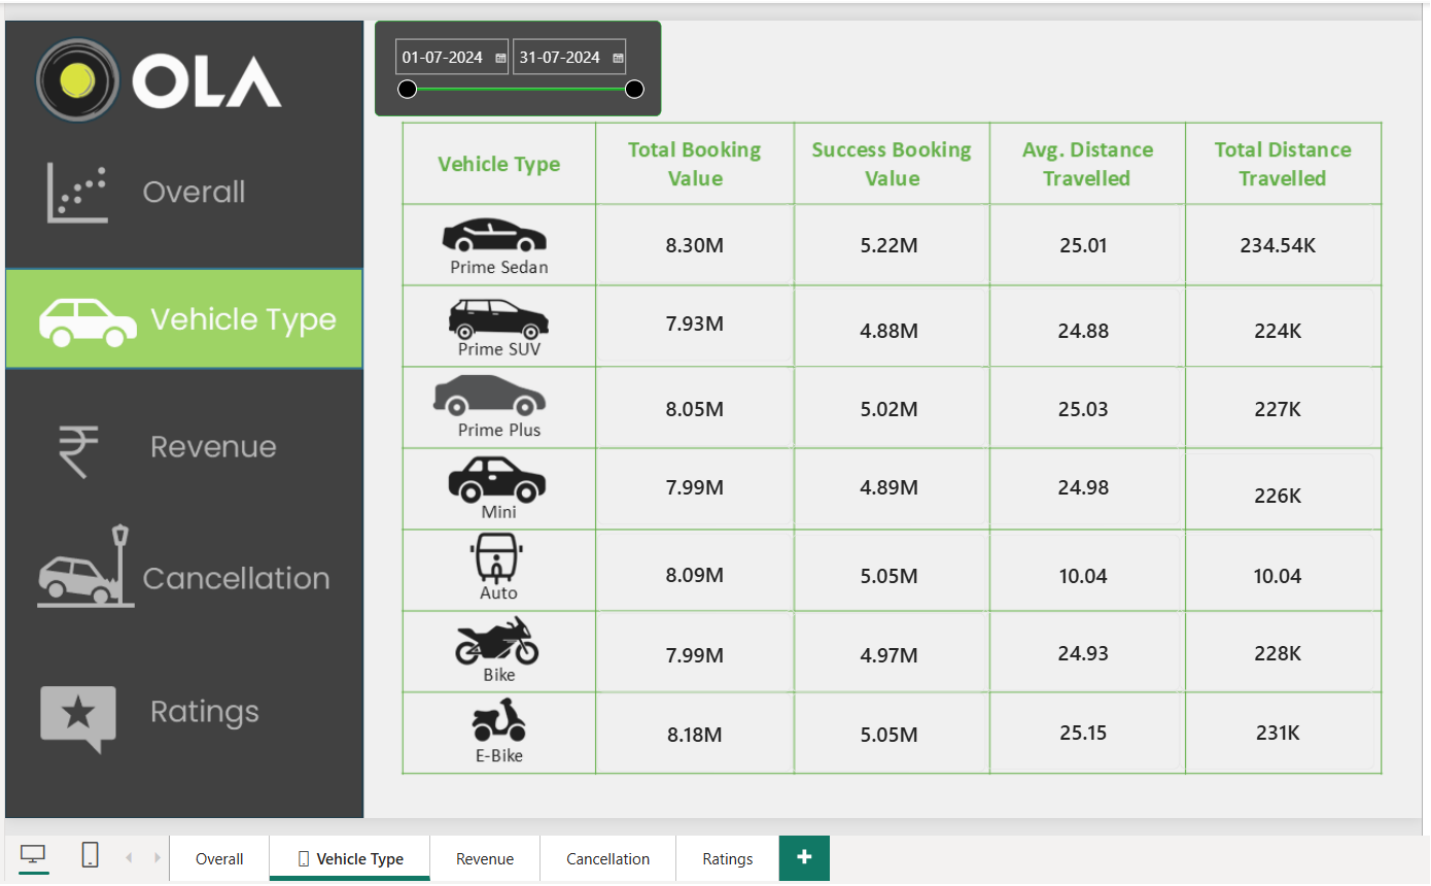

Key Findings

- 103,024 total bookings are shown for July 2024.
- 63,967 bookings were successful, approximately 62.09% of total bookings.
- 18.43K bookings were cancelled by drivers (17.89%); 10.5K by customers (10.19%); 10.12K were marked driver not found (9.83%).
- Reported total revenue is 35.1M.
- Daily ride volume generally fluctuates around 3.2K–3.4K, with a visible end-of-period dip to about 3,072.

2. Vehicle Type Performance

Reporting period: 01–31 July 2024

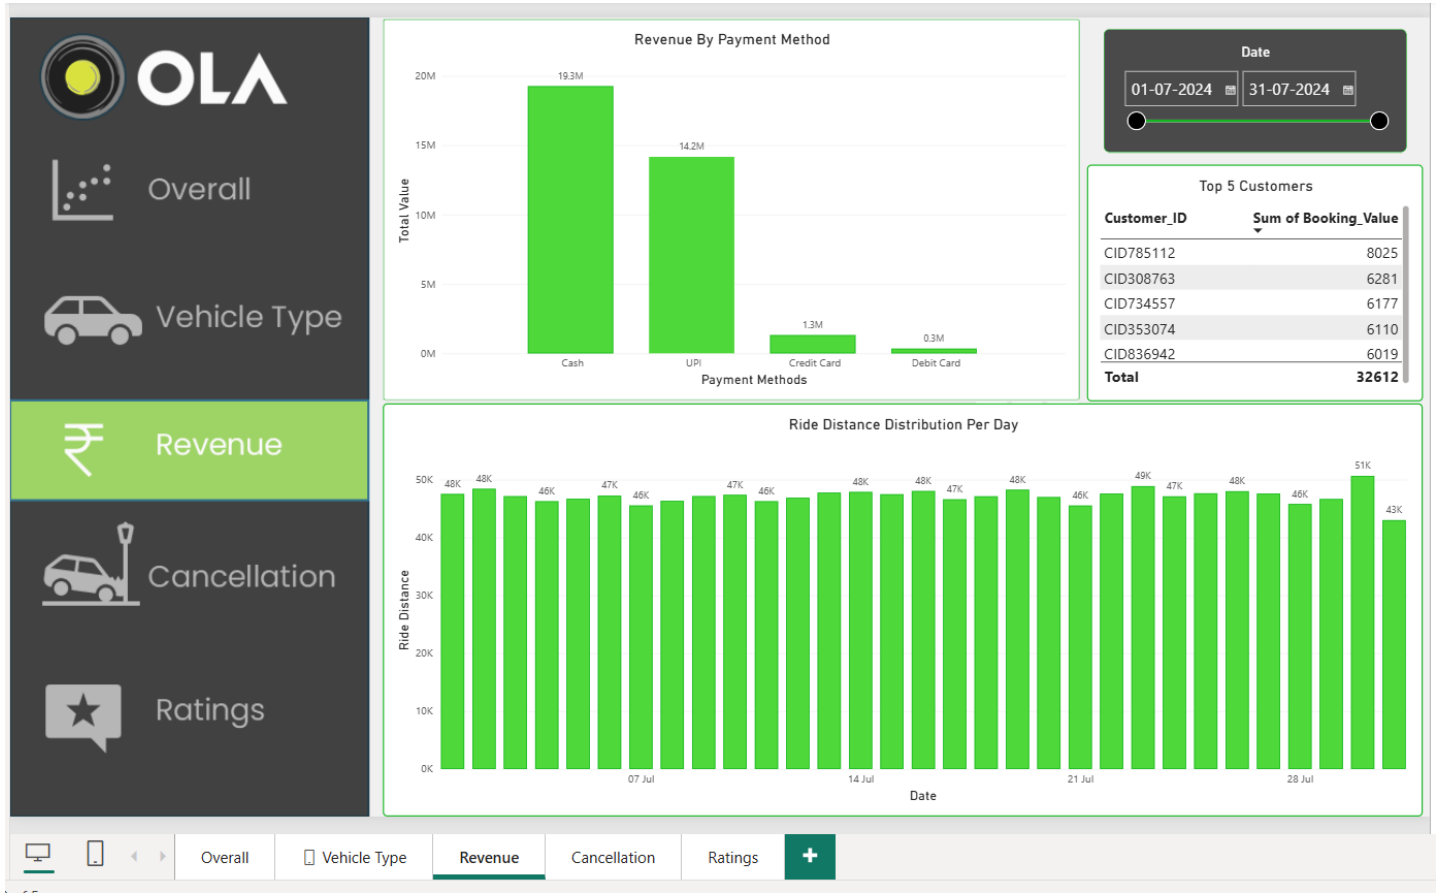

Vehicle Type	Total Booking Value	Success Booking Value	Avg. Distance Travelled	Total Distance Travelled
Prime Sedan	8.30M	5.22M	25.01	234.54K
Prime SUV	7.93M	4.88M	24.88	224K
Prime Plus	8.05M	5.02M	25.03	227K
Mini	7.99M	4.89M	24.98	226K
Auto	8.09M	5.05M	10.04	10.04
Bike	7.99M	4.97M	24.93	228K
E-Bike	8.18M	5.05M	25.15	231K

Key Findings

- Total booking value ranges from 7.93M for Prime SUV to 8.30M for Prime Sedan.
- Prime Sedan has the highest displayed total booking value (8.30M) and successful booking value (5.22M).
- E-Bike shows 8.18M total booking value and 5.05M successful booking value; Auto shows 8.09M and 5.05M respectively.
- Average distance is close to 25 for most vehicle categories.
- Auto displays 10.04 for both average and total distance, unlike other categories; validate this metric.

3. Revenue & Payment Patterns

Reporting period: 01–31 July 2024

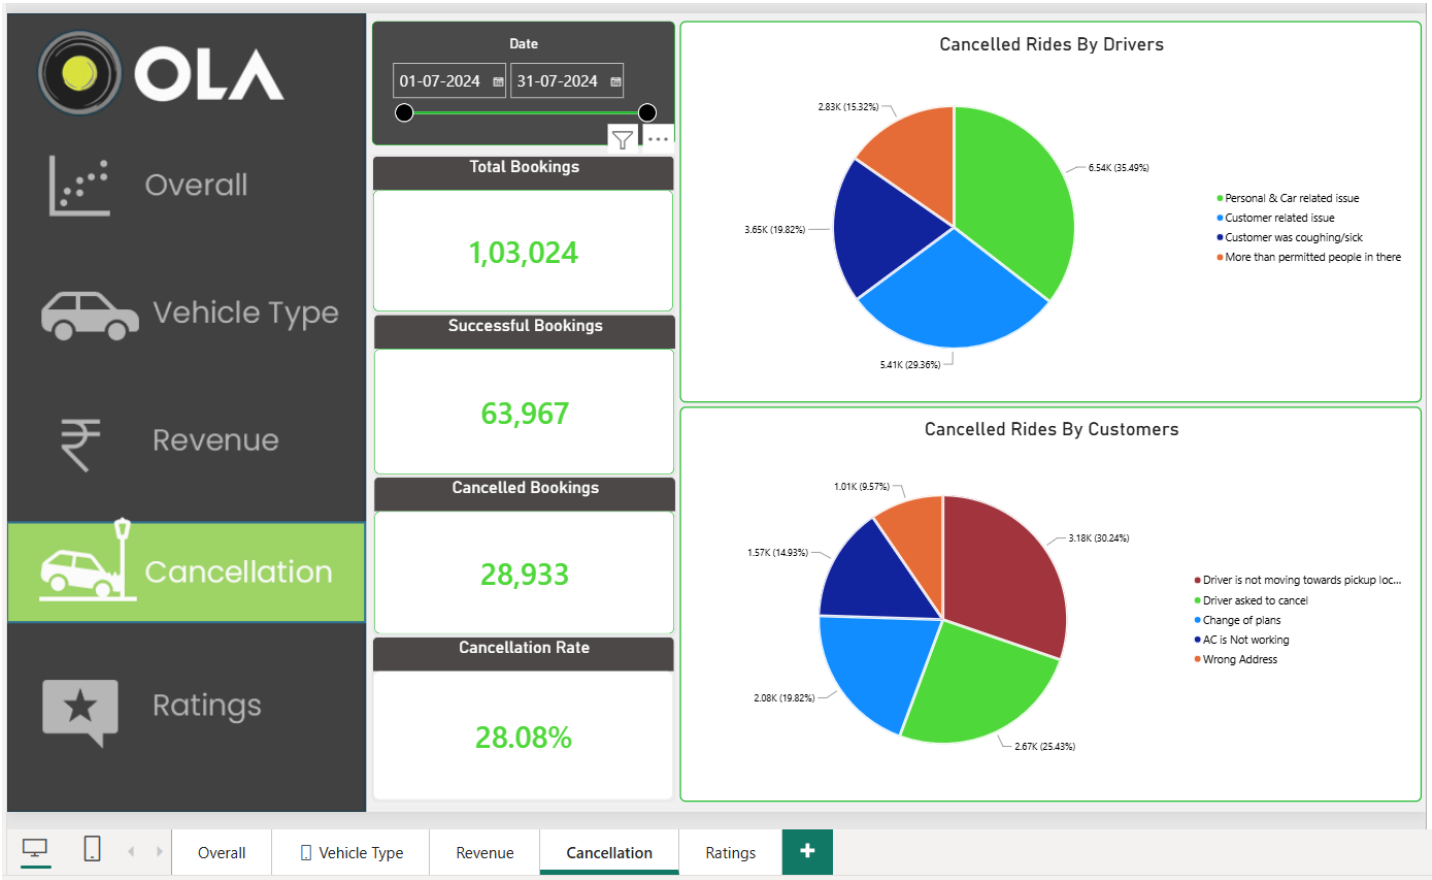

Key Findings

- Cash is the largest payment method by displayed total value at approximately 19.3M.
- UPI contributes approximately 14.2M, followed by credit card at 1.3M and debit card at 0.3M.
- The top five customers have displayed booking values of 8,025; 6,281; 6,177; 6,110; and 6,019.
- Daily ride distance is generally around 46K–49K, with a peak near 51K and a final displayed value near 43K.
- Confirm whether the displayed value represents gross booking value, collected revenue, or another amount.

4. Cancellation Analysis

Reporting period: 01–31 July 2024

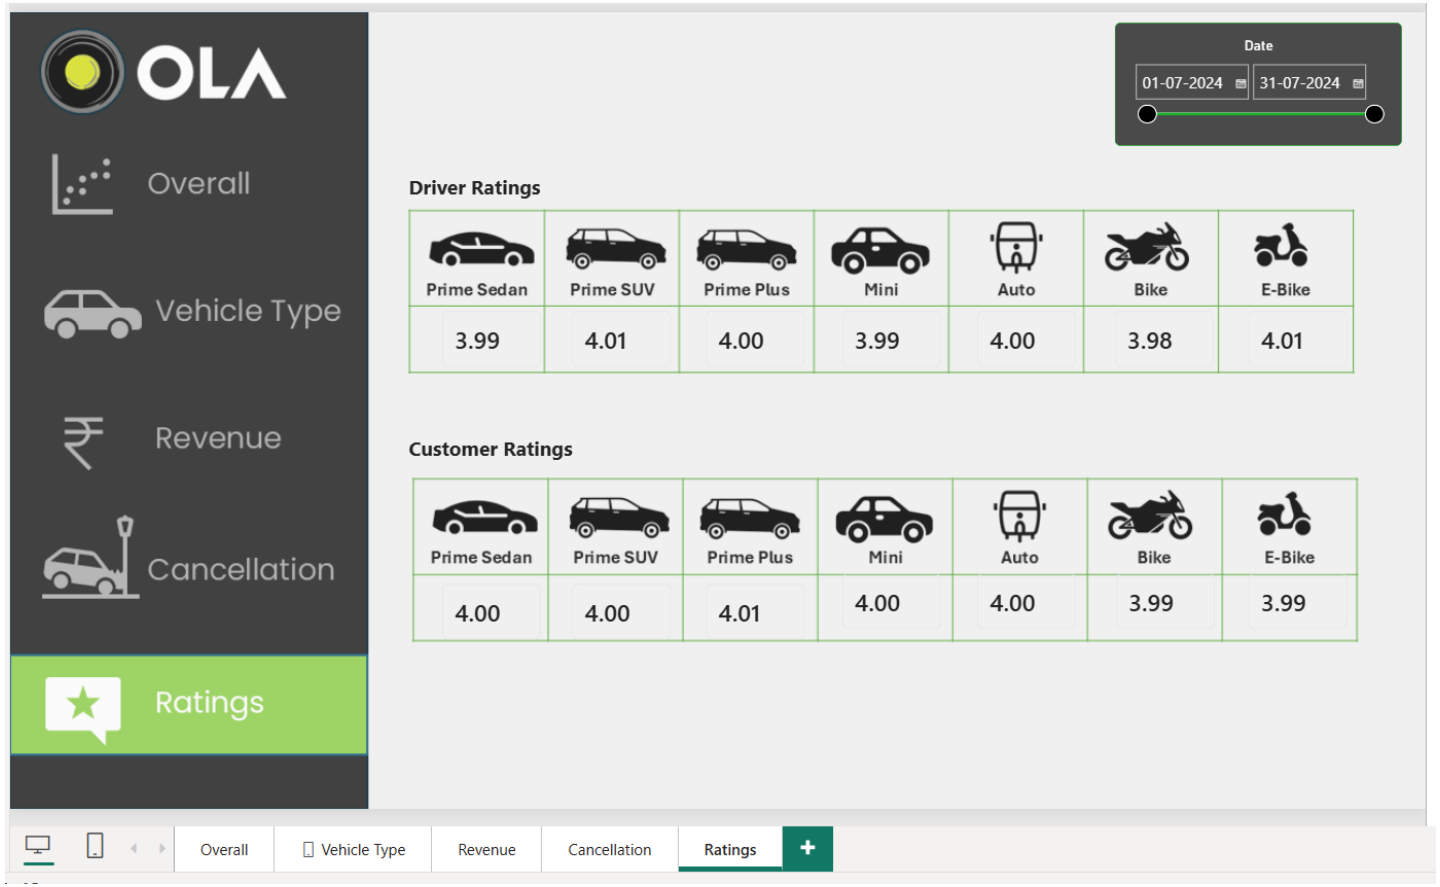

Key Findings

- The report shows 28,933 cancelled bookings and a 28.08% cancellation rate.
- Driver cancellation reasons: personal/car-related issue (6.54K; 35.49%), customer-related issue (5.41K; 29.36%), customer coughing/sick (3.65K; 19.82%), and too many people (2.83K; 15.32%).
- Customer cancellation reasons include driver not moving towards pickup (3.18K; 30.24%) and driver asked to cancel (2.67K; 25.43%).
- Other customer reasons shown are change of plans (2.08K; 19.82%), AC not working (1.57K; 14.93%), and wrong address (1.01K; 9.57%).

5. Ratings & Service Experience

Reporting period: 01–31 July 2024

Key Findings

- Driver ratings range from 3.98 to 4.01 across vehicle types.
- Customer ratings range from 3.99 to 4.01.
- Prime SUV and E-Bike have driver ratings of 4.01; Prime Plus has a customer rating of 4.01.
- Bike has the lowest displayed driver rating at 3.98 and customer rating at 3.99.
- Rating differences are small; rating counts and score distributions would help establish whether they are meaningful.
